

## OUR SERVICES

### Expect more from MUIR means expect more *service* than you've ever gotten before.

We combine our quality graphics with unparalleled, proactive service... most of which are value-added services, meaning they come with every project – at no cost to you.

#### Total Program Management

Every Muir project is driven by our **Total Program Management Services** process and begins with a step-by-step review and execution of the specific requirements, performance, production, and application needs in order to determine maximum efficiencies and value. Our comprehensive approach encompasses:

- Design
- Rapid prototyping
- Inventory management
- Installation

#### Value Added Services

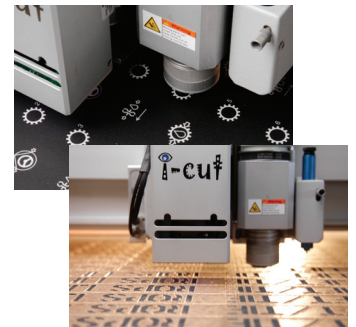

By performing a **Needs Analysis** we can meet decal production and standards requirements (e.g. substrate, ink, resistance needs, mounting method, and proofing) for your specific timelines, application and usage.

Our **Design and Production Strategies** are to help you find the best type of:

- Material
- Inks & Coatings
- Converting / Finishing operations

We work closely with your engineering team to develop **Engineering Recommendations** to ensure that the build specifications precisely match your decal application requirements. In cases where an internal engineer might not be available, we can provide these services as turn-key.

- Review of data
- Consolidated production

We are **Green Assurance (ISO 14001:2004)** and **Quality Assurance (ISO 9001:2008)** certified. ISO 14001:2004 are standards for environmental management systems designed to help organizations minimize how their operations negatively affect the environment by the International Organization for Standardization. ISO 9001:2008 is a family of standards for quality management systems set by the International Organization for Standardization.

We also provide **Invoice and Document Management**.

- Electronic data interchange (EDI)
- Compliance

#### Simply put, our people are the best in the business.

Our Directors are personally involved in each and every project and they average more than 15 years experience in markings and decal production.

While we believe our solutions are best-of-class, it's the service we add to each and every project that really sets us apart and why we say you should... **EXPECT MORE FROM MUIR.**

**FIRST  
TIME  
CUSTOMER?**

Let us design a free prototype. Then you will really see the MUIR difference!
